

GAS CYLINDER SCALE

GQ-CWS-V3

The GQ-CWS-V3 Gas Cylinder Scale is used for taking accurate measurements of gas cylinder weights. The scale is easily deployable in the field, or back at the shop when taking inventory. A low-profile design, lightweight construction, and rechargeable battery make this scale ultra-portable. A rugged pelican case with custom cut foam makes transportation easy.

LOW-PROFILE PLATFORM

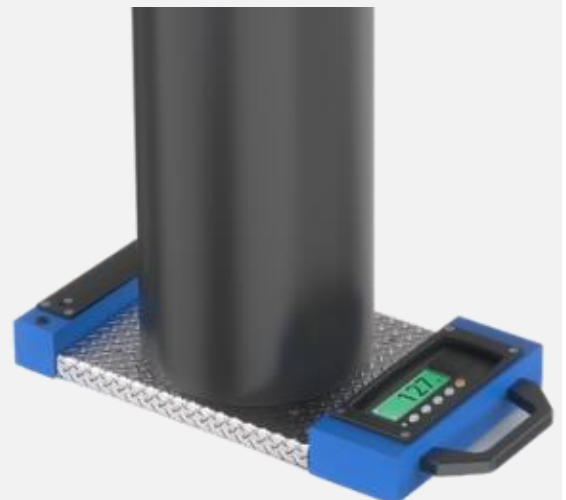

Full gas cylinders can weigh 200+ pounds. Let's roll those cylinders easily onto the scale instead of lifting them by using a low-profile platform

LIGHTWEIGHT BUT RUGGED

This cylinder scale & case takes up less room in your truck, and you won't have to throw out your back just to get it out.

PRECISE MASS MEASUREMENTS

Report true gas usage with custom load cells designed with accuracy of ± 0.1 lbs. Meets all EPA & CARB requirements for cylinder scales.

SPECIFICATIONS

General	
Device Dimensions	18" x 14"
Power Supply	120V or Batteries
Operating Temperature	0-60°C
Platform Dimensions	12"x10"
Weight	15 lbs
Case Weight	15lbs
Case Dimensions	22.0 x 14.0 x 7.5"
Accuracy	±0.1 % FS
Shipping Information	
Package Contents	GQ-CWS & Power Cable
Battery Type	Li-Ion
Accessories	
Carrying Case	GQ-CWS-CASE
